## **1. BACKGROUND AND OVERVIEW OF THE PROJECT**

The Budget and Treasury office within the Alfred Nzo District Municipality has identified the offices that were rented by FNB and will be moving the Expenditure and Supply Chain Management staff to the identified offices together with the documents/files that they are using, these documents/files contain important information of the municipality. The identified offices have lots of big windows and doors, as well as behind the offices there's no security wall that will obscure on what is happening within the offices. This is a high risk to the staff as well as the information that will be kept in those offices as they're exposed to the outside world.

This led to the fact that the space that they will be occupying should be a safe space with burglar bars in order to minimise the risk that the staff and documents are facing.

### **1.1 INTRODUCTION**

To acquire the service of a suitable service provider to assist in supplying and fitting of burglar bars in the FNB offices in Alfred Nzo District Municipality in Mt Ayliff offices.

## **2. OVERALL AND SPECIFIC OBJECTIVES OF THE PROJECT**

2.1 The objective of the project is to ensure that the Expenditure and SCM staff are placed in a safe place as they are dealing with important information of the municipality.

2.2 That the documents that they will be keeping are also safe especially when required for reference and audit purposes.

## **3. PROJECT NAME**

Supply and delivery of burglar bars

**NB:** No compulsory briefing session will be done.

## **4. PROJECT DESCRIPTION**

### **4.1 AIMS AND OBJECTIVES OF THE PROJECT**

The main objective of the project is:

- To ensure that the staff that will be occupying the office space is safe and secured.

## 5. SCOPE AND EXTENT OF WORK

Alfred Nzo District Municipality would like to appoint a service provider for the supply and installation of burglar bars at ANDM offices in Mount Ayliff.

The scope of work includes the provision of the following goods and services:

1. Supply and installation of burglar bars.

The scope of work includes all materials, transportation and supplies needed to execute this service.

## 6. SPECIFICATION FOR BURGLAR BARS

- Burglar Bars must have a unique tamper proof system that simply roots the burglar Bars in further, when tampered with.
- To be burglar bars that are constructed with CO2 welds, which ensures a stronger weld that can withstand various pulling forces
- Our Burglar Bar range sports a 1 year UV Protected Guarantee! That ensures your product will not yellow or fade.
- Must be burglar bars that are completed in a T.G.I.C Grade of powder coating, the UV stabilized T.G.I.C which ensures that the burglar bars never fade or yellow as time goes on.
- The burglar bars to be supplied and fitted should be white in colour
