CERTIFICATE OF INDEPENDENT BID DETERMINATION – MBD 9

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.

- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.

- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

7. Addendum

What Is an Addendum?

An addendum is an attachment to a contract that modifies the terms and conditions of the original contract. Addendums are used to efficiently update the terms or conditions of many types of contracts.

The function of an addendum is to modify, clarify, or nullify a portion of the original document, which could be as simple as extending the dates for which the contract is valid

How an Addendum Works

An addendum may include any written item added to an existing piece of writing. The addition often applies to supplemental documentation that changes the initial agreement that forms the original contract.

In that context, the addition may also serve a purely informational purpose, such as a supplement to a book or documents that demonstrate a [provision of the contract](#). In these cases, the information may also contain drawings or diagrams that clarify the details of an agreement.

As with other portions of the contract, addendums often require signatures for all parties involved in the negotiation. This process provides the acknowledgment that the parties have reviewed and accepted the new or additional information. The addendum becomes a binding part of the contract. The signing may require a witness to ensure validity.

Addendums vs. Amendments

When an addendum alters a previously signed arrangement, it is known as an [amendment](#). While both addendums and amendments provide for changes to already created documents, addendums are added to works in progress or contracts that are in the development phase and have not yet been executed. In contrast, amendments are used for documents that were previously considered complete, fully agreed upon by all parties, and executed in their original form.

Amendments are frequent in construction contracts. Their function is to make contract changes without having to rewrite an entire contract. As an example, a company may contract to construct a new building, but as they begin to dig the footers, they find the underlying soil to be substandard and in need of reinforcement. An addendum is useful to add the requirement to reinforce the soil without the need to recreate a new contract.

8. Disbursements, Travel And Subsistence

No bidder will be refunded any cost or disbursements incurred in respect of the project, save where the prior written approval of ANDM has been obtained in respect of such expenditure.

The rates payable for the use of private vehicles will be the prevailing rates quoted by the Automobile Association of South Africa

All expenses incurred by the bidder for the proposal and presentations are the responsibility of the bidder and will not be reimbursed by ANDM
